

RECOMMENDATION

Thor-Björn Bergman, born April 21, 1957

I have known Thor-Björn Bergman since the fall 1988. Through my work as a consultant I was recommended to engage Thor-Björn as consultant of education. Thor-Björn's main subjects are **business development, management, computers and service.**

Thor-Björn is highly qualified in his profession. He is furthermore an excellent teacher, which makes him greatly appreciated by his clients.

For more than two years Thor-Björn has in a very deserving way taken part in the consult group Pedagogkonsult Peter Mörck AB. The commissions have been directed towards the private industry and commerce as well as government sector.

Thor-Björn is always well prepared and conducts and carries out his commission in a very professional way.

According to the above I give my best recommendations.
